

55370AC SharePoint Online Management and Administration

Days: 4

Description: Course 55370A is the Community Courseware equivalent of retired Microsoft Course 20331 – Administering SharePoint Online.

SharePoint Online is part of Microsoft 365 and underpins all the file experiences in Microsoft 365. This four-day course introduces the audience to SharePoint Online Administration. The course is appropriate for existing SharePoint on-premises administrators and those new to SharePoint administration.

Although this course and the associated labs are written for Office 365 with Windows 11, the skills taught will also be backwards compatible with Windows 10. This course is based on the features available in the Office 365 E3 license as these are the core features in Office 365 and Microsoft 365 plans.

Prerequisites: An overview and general knowledge of Office 365 and SharePoint is beneficial prior to attending this course

Audience: This course is for information technology (IT) professionals. You should have a general understanding of the purpose and operation of Microsoft 365, Microsoft Teams and Microsoft SharePoint.

OUTLINE:

MODULE 1: INTRODUCTION TO OFFICE 365 AND SHAREPOINT ONLINE

In this module, you will set up an Office 365 tenant for personal development purposes. This module covers the foundational topics upon which the course is based including an overview of the core services of Office 365 and how to access the Office 365 administration portals.

LESSONS

- Create an Office 365 Tenant for Personal Skills Development
- Overview of Office 365
- Overview of SharePoint Online
- Accessing Administration Portals in Office 365
- Managing SharePoint Online with PowerShell

Lab 1: Provisioning Office 365

- Configure an Office 365 Developer Tenant
- Configure PowerShell for Office 365 and SharePoint Online
- Create Test Users
- Create SharePoint Site

MODULE 2: CONFIGURING SHAREPOINT POLICIES SETTINGS

This module looks at SharePoint Policies and settings to control external access and sharing, access controls, as well as SharePoint and OneDrive defaults.

LESSONS

- External Access in Office 365
- SharePoint Access Controls
- SharePoint Settings
- OneDrive Settings

Lab 1: Configuring External Access for Office 365

- Configure Azure AD External Access Settings
- Configure Microsoft 365 External Access Settings
- Configure SharePoint Sharing Policies

Lab 2: Configuring SharePoint and OneDrive Settings

- Configure SharePoint Settings
- Configure OneDrive Settings

55370AC SharePoint Online Management and Administration

MODULE 3: WORKING WITH SITE COLLECTIONS

This module describes the SharePoint architecture of sites and site collections including how to create and manage them. You will learn how to configure settings and external sharing on a site collection basis.

LESSONS

- Creating Site Collections
- Using with Site Templates
- Define Site Collection Administrators and Site Owners
- Configure External Sharing Settings at Site Collection Level
- Delete and Restore Site Collections
- Working with Hub Sites
- Managing Site Collections with PowerShell

Lab 1: Creating and Managing Site Collections

- Create Site Collections
- Configure Site Collections
- Delete and Restore Site Collections

Lab 2: Working with Hub Sites

- Declare a Hub Site
- Associate with a Hub Site
- Delete a Hub Site

MODULE 4: WORKING WITH SITES

In this module, you will learn how to customize individual sites, managing site navigation, creating and customizing apps including columns and views as well as creating and managing pages including news pages. Also included in this module is granting access to the site and managing site permissions.

LESSONS

- Apps, Lists and Libraries
- Pages and News
- Site Permissions
- Navigation

Lab 1: Customize a Team Site

- Create and Customize Apps
- Working with Pages
- Manage Site Navigation
- Manage Site Permissions

Lab 2: Customize a Communication Site

- Create and Customize Apps
- Working with Pages
- Manage Site Navigation
- Manage Site Permissions

In this module, you will learn how to use the Term Store to create and manage taxonomy and deploy managed metadata in SharePoint sites. You will also learn how to create content types to deploy templates for items lists & libraries.

LESSONS

- Site Columns
- Using the Term Store
- Managed Metadata Columns

- Site Content Types and Tenant Content Types
- Content Types for Lists
- Content Types for Libraries

Lab 1: Using Managed MetaData and Content Types

- Create Site Columns
- Customize Taxonomy in the Term Store
- Create and Use Managed Metadata Columns
- Create and Deploy Content Types

MODULE 9: MICROSOFT SEARCH

This this module, you will learn how to deploy, use and customize Microsoft Search including integration with Bing Search.

LESSONS

- What is Microsoft Search
- Configure Integrations
- Configure Answers
- Review Insights and Usage Statistics

Lab 1: Deploying Viva Connections

- Configure Integrations
- Create Custom Answers
- Review Usage Statistics

MODULE 10: VIVA TOPICS

In this module, you will learn how to deploy, use and customise Viva Topics including integration with Managed Metadata.

LESSONS

- What is Viva Topics
- Configure Viva Topics
- Manage Topics and Topic Pages
- Integrate with Managed Metadata

Lab 1: Working with Viva Topics

- Deploy Viva Topics
- Manage Topics Pages
- Create Topics from Managed Metadata

55370AC SharePoint Online Management and Administration

MODULE 11: SECURITY AND COMPLIANCE IN OFFICE 365

This module introduces the Security and Compliance features in Office 365. Whilst Microsoft 365 plans includes extended security and compliance features, this module will focus on those products available in the core plans without the extended licensing.

LESSONS

- Overview of Security and Compliance Features in Office 365
- Extending Security and compliance Features with Additional Licences
- Using the Microsoft Defender Portal and Secure Score
- Using the Office 365 Compliance Portal and Compliance Score
- Plan and Configure Retention Labels and Policies
- Plan and Configure Data Loss Prevention Policies
- Create and Assign Sensitivity Labels
- Configure Safe Attachments and Safe Links Policies
- Plan and Configure Multi Factor Authentication

Lab 1: Configure Security and Compliance in Office 365

- Review Secure Score
- Configure Threat Protection
- Configure Sensitivity Labels
- Configure Retention for Microsoft Teams
- Configure Multi Factor Authentication

MODULE 12: TROUBLESHOOTING SHAREPOINT ONLINE

This module looks at techniques for troubleshooting issues with SharePoint Online. You will also learn about the reporting and monitoring tools and features available.

LESSONS

- Monitor Office 365 Service Health
- Troubleshoot Office 365 Connectivity and Service Issues
- Troubleshooting SharePoint Online
- Reporting and Monitoring SharePoint Online Usage

Lab 1: Troubleshoot SharePoint Online

- Troubleshoot SharePoint Online
