

Administering Packaged Contact Center Enterprise (APCCE)

COURSE OVERVIEW:

Administering Packaged Contact Center Enterprise (APCCE) is a Sunset Learning Institute developed course that provides students with an introduction and understanding of Cisco Unified Contact Center Enterprise basics and components. APCCE is an administration course focusing on the day-to-day tasks needed to manage a Cisco deployed Packaged Contact Center Enterprise environment.

While the class will focus on the ICM web administration tool, students will also be introduced to the supporting Call Manager and CVP configurations and administration requirements.

The class begins with an introduction to contact center operations and KPIs and then covers the administration and configuration of the most frequently addressed contact center parameters including; Agents, Agent Teams, Skill Groups, Precision Queues, Front End VRU Scripts, Call Flows and Scripting, and Reporting and Security. Student understanding of each of the topics covered will be reinforced through the use of practical hands on labs and workshops.

Finally, students will be given the opportunity to implement a practical business case utilizing their newfound PCCE knowledge. The business case will be presented as a set of requirements which students will be required to analyze, configure and script from the ground up. Once completed, students will be encouraged to present their completed solution for an 'acceptance test'.

After successfully completing this class, students will be able to perform the tasks associated with the adds, moves and changes and reporting within the contact center, and in addition take a complex business case from concept through call flow to a working deployment.

As an administration class, we will assume that the deployment is complete and the underlying telephony platform(s) have been successfully delivered.

WHO WILL BENEFIT FROM THIS COURSE?

Anyone responsible for the day-to-day management and administration of a packaged Cisco Packaged Contact Center Enterprise environment.

PREREQUISITES:

The knowledge and skills that a learner should have before attending this course are as follows:

- Basic knowledge of networking (Windows A/D, SQL) and components (servers, routers, switch) is helpful but not required
- Working knowledge of a Windows computer including a mouse and the simultaneous use of the Alt-Tab keys is required.
- Working knowledge of Unified Communications Manager and Voice Gateways would be really helpful. Take the VFCC course, by example
- A basic understanding of contact center operations

COURSE OUTLINE:**Module 1: Introducing UCCE**

- Lesson 1: Contact Center Basics
- Lesson 2: PCCE Components
- Lesson 3: Packaged CCE
- Lesson 4: Agent Desktop Options

Module 2: PCCE Terms and Additional Components

- Lesson 1: Terms
- Lesson 2: Additional Components

Module 3: PCCE Administration

- Lesson 1: Web Administration Access
- Lesson 2: Working with Agents
- Lesson 3: Working with Agent Attributes
- Lesson 4: Agent Desk Settings
- Lesson 5: Introducing Precision Queues
- Lesson 6: Working with Reason codes
- Lesson 7: Working with Skill groups
- Lesson 8: Agent Teams
- Lesson 9: Understanding Bucket Intervals
- Lesson 10: Working with Call types
- Lesson 11: Working with Dialed Numbers
- Lesson 12: Understanding Expanded Call Variables
- Lesson 13: Introducing Network VRU Scripts
- Lesson 14: Using Bulk Loads
- Lesson 15: Introducing System Information
- Lesson 16: System Settings
- Lesson 17: Agent Trace
- Lesson 18: Log Collections
- Lesson 19: Departments and Roles

Module 4: Accessing PCCE Tools

- Lesson 1: Accessing UCM
- Lesson 2: Accessing ICM
- Lesson 3: Accessing CVP
- Lesson 4: Accessing Voice Gateways

Module 5: PCCE Configuration and Scripting

- Lesson 1: Script Editor Overview
- Lesson 2: Scripting for CVP

Module 6: Agent Support Consideration

- Lesson 1: CTI Options
- Lesson 2: ICM Agent Configuration
- Lesson 3: UCM Agent Configuration
- Lesson 4: ICM Agent Scripting

Module 7: Scripting with Microapps

- Lesson 1: Microapps
- Lesson 2: ECC Variables
- Lesson 3: Media Server
- Lesson 4: Prompt Caching considerations
- Lesson 5: ICM Configuration steps
- Lesson 6: Building a Simple Script using Microapps

Module 8: Reporting Considerations

- Lesson 1: Touch Points
- Lesson 2: Reporting Objects

Module 9: Precision Routing

- Lesson 1: Overview
- Lesson 2: Attributes
- Lesson 3: Building a Precision Queue
- Lesson 4: Using Dynamic Queues and Call types

Module 10: RONA

- Lesson 1: Understanding RONA

Module 11: Basic VXML Functionality

- Lesson 1: What is VXML

Module 12: Reporting

- Lesson 1: CUIC

Lab Exercises

- Lab 1-1: Check out the Lab Environment:
- Lab 1-2: Explore ICM and CVP Servers:
- Lab 2-1: Tools and Utilities for Administering ICM Dialed Numbers and Call Types:
- Lab 2-2: Prepare a simple Label Script:
- Lab 2-3: Using ICM Tools for ICM Scripts:
- Lab 3-1: Configure ICM for Basic Agent Management and Skill Group Functionality
- Lab 3-2: Configure UCM for Agent Functionality:
- Lab 3-3: Testing Basic Skill Group Functionality in an ICM Script:
- Lab 4-1: Media Files and Variables in ICM Scripts to support Prompt, Collect, Queue:
- Lab 4-2: Basic IVR Scripting with MicroApps:
- Lab 5-1: Configuring and using Precision Queues:
- Lab 5-2: RONA
- Lab 5-3: Implement Administrative Scripts
- Lab 6-1: VXML Server Configuration and Call Studio Installation:

- Lab 6-2: Create and Deploy a Cisco Unified Call Studio Project:
- Lab 6-3: Integrate VXML Applications with ICM Script:
- Lab 7-1: Configuring CCE for Monitoring and Reporting:
- Lab 7-2: Run CCE Reports, Create a Dashboard in CUIC
- Lab 8-1: Business Case

SUNSET LEARNING INSTITUTE (SLI) DIFFERENTIATORS:

Sunset Learning Institute (SLI) has been an innovative leader in developing and delivering authorized technical training since 1996. Our goal is to help our customers optimize their cloud technology investments by providing convenient, high quality technical training that our customers can rely on. We empower students to master their desired technologies for their unique environments.

What sets SLI apart is not only our immense selection of trainings options, but our convenient and consistent delivery system. No matter how complex your environment is or where you are located, SLI is sure to have a training solution that you can count on!

Premiere World Class Instruction Team

- All SLI instructors have a four-year technical degree, instructor level certifications and field consulting work experience.
- Sunset Learning has won numerous Instructor Excellence and Instructor Quality Distinction awards since 2012

Enhanced Learning Experience

- The goal of our instructors during class is ensure students understand the material, guide them through our labs and encourage questions and interactive discussions.

Convenient and Reliable Training Experience

- You have the option to attend classes at any of our established training facilities or from the convenience of your home or office with the use of our HD-ILT network (High Definition Instructor Led Training)
- All Sunset Learning Institute classes are guaranteed to run – you can count on us to deliver the training you need when you need it!

Outstanding Customer Service

- Dedicated account manager to suggest the optimal learning path for you and your team
- Enthusiastic Student Services team available to answer any questions and ensure a quality training experience
