

Information Technology Management and Leadership Executive (ITMLE)

Days: 3

Audience: Seasoned IT Managers

Description: The IT Management and Leadership Executive (ITMLE) certification Boot Camp training class is designed to help current and aspiring IT senior managers maximize their current job performance and accelerate their professional advancement. IT executives must be more than just technical. They must have well-developed people skills, a broad business view, strong management capabilities, and an understanding of current technology trends. This three-day bootcamp provides the concepts, insights and techniques to propel participants forward in their IT Executive journey. Developed by an experienced CIO, and then vetted by a board of senior IT industry executives, the ITMLE shows that those who successfully complete Final Exam, brings credible and validated industry knowledge to the organizations they serve.
